Report on Review of Interim Condensed Consolidated Financial Statements

To the Board of Directors of Pegasus Hava Taşımacılığı Anonim Şirketi

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of Pegasus Hava Taşımacılığı Anonim Şirketi (the Company) and its subsidiaries (“the Group”) as of 30 June 2021 and the interim condensed consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and the consolidated statement cash flows for the six-months period then ended, and explanatory notes. Group management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with Turkish Accounting Standard 34, Interim Financial Reporting (“TAS 34”). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (“SRE”) 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Emphasis of Matter

As mentioned in Note 1 to the condensed consolidated financial statements, the COVID-19 pandemic had a major impact on the airline industry and the operations of the Group, affecting the operation of the flights and, consequently significantly reduced the amount of revenues. This had significant impacts on operating results and cash generation. Given the unprecedented nature of the pandemic, the impact and duration of this impact on the airline industry is difficult to predict, but may include a prolonged global recession and changes to consumer behavior which may impact passenger numbers in both the short term and longer term. Our opinion is not qualified in respect of these matters.

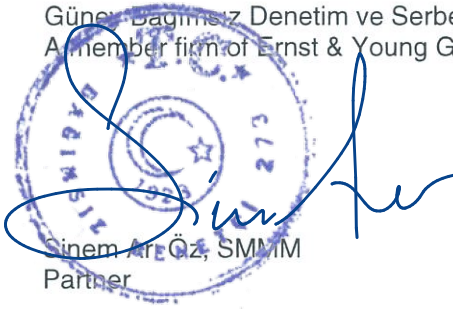

**Building a better
working world**

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with TAS 34.

Board of Directors has approved the condensed consolidated financial statements as of 30 June 2021 and delegated authority for publishing it on 17 August 2021. General shareholders’ meeting has the authority to modify the financial statements.

COVID-19 Effects and Impairment Analysis

The COVID-19 pandemic has had a significant impact on Pegasus and the aviation industry generally. As a result of COVID-19, governments have imposed an unprecedented level of travel restrictions across the Company’s markets and consumer confidence and willingness to travel have decreased significantly. On March 30, 2020, in response to COVID-19-related restrictions imposed by the Turkish General Directorate of Civil Aviation and foreign authorities, the whole Pegasus fleet was grounded, and the Group did not operate any commercial flights in April and May 2020. During June 2020, the Group restarted domestic flights and international flights to allowed countries. However, revenue and profitability of the Group decreased compared to pre-COVID period due to above explained effects.

Since March 2020, the Group took measures to decrease fixed costs, to maintain cash position and to stabilize current ratio. With an effort to optimize the payroll costs (which constituted 80% of total cash fixed costs, which are comprised of personnel expenses overhead expenses, training expenses, marketing expenses, insurance expenses and other fixed expenses) through unpaid vacation offered to the employees and participation in the government’s furlough scheme (which ended as of 30 June 2021). The Group also negotiates permanent discounts and deferrals in contracts with suppliers, in order to support cash flow management. Savings have been maintained at fixed costs through transition to remote working structure and with this structure, it’s expected that these savings can be maintained permanently in the future as well. Maintenance activity has been optimized based on revised flight schedules. With an aim to both control costs and cash flow management, general expenditure budget have been reviewed and as a result non-urgent and non-critical projects have been postponed. During this period, alongside these measures, the Group drew down new borrowings from commercial banks. The Group’s average monthly operational cash burn was €19.9 million for the fifteen months ending June 30, 2021, that is, the period in 2020 and 2021 affected by the COVID-19 pandemic. The Group calculates monthly operational cash burn by deducting all operating expenses except depreciation and amortization expenses, net interest expenses and lease payments from revenues for the relevant period.

NOTE 1 - ORGANIZATION AND OPERATIONS OF THE GROUP

COVID-19 Effects and Impairment Analysis

With the restarting of operations in June 2020 and in parallel with the strategy of solely operating flights that generate a positive contribution (i.e., revenues netted off against operational expenses excluding fixed costs), the Group's cash burn decelerated throughout the third quarter of 2020. The swift pick-up in domestic demand also supported the recovery trend. However, in the fourth quarter of 2020, the effect of seasonality, the payment of deferred liabilities and the government's decision to re-impose curfews and lockdowns starting from the end of November 2020, weighed negatively on the Group's operations and led to an increase in cash burn. The base case scenario that is modelled by the management was initially approved by the Board of Directors in December 2020 but subsequently was updated in May 2021 as a result of changing expectations due to uncertainties brought by COVID-19. Based on this revised base case scenario, management assumes a gradual ramp-up in passenger demand with a stronger recovery in traffic in the second half of 2021. Based on these assumptions, management expects generating positive cash flow from operations (after deducting interest and lease payments) in the second half of 2021.

Management uses the following main parameters over the course of its planning process: production (in terms of block hours), load factors and yield (revenue per passenger). In the base case scenario, management assumes that the average domestic production capacity and international production capacity reach slightly above the pre-COVID-19 level in the next 12 months, i.e. until the end of June 30, 2022, due to addition of new aircraft, addition of international routes to the flight network and first time whole year contribution of the newly added routes during 2019, 2020 and 2021. In addition to this base case scenario, management has also modelled a more conservative scenario assuming decline in activity in the remainder of 2021 and the first half of 2022 relative to the assumptions, to assess the liquidity position over a period of 12 months from June 30, 2021. The capacity at this scenario has been assumed to be the realized production level of first seven months in 2021 as compared to its pre-COVID-19 levels for the remainder of 2021 and the first six months in 2022. The first seven months include the total lockdown between April 30th and May 17th and was the period when COVID-19 cases peaked, however management has still decided to use this period's performance as a reference to make a stress test. Consequently, the realized average domestic production capacity of 82% and average international production capacity of 52% of pre-COVID-19 levels have been assumed for the second half of 2021 and the first half of 2022 in this conservative scenario. Though the main concern was around decrease in the production due to COVID-19, in order to test vulnerability, management also slightly decreased expected yields and load factors compared to the revised base case scenario. Even in this situation, management expects to generate the required cash flow from its operations to continue its activities over this 12-month period from June 30, 2021 until June 30th, 2022. While management believes the foregoing analysis provides a reasonable basis for this expectation, there is a risk that the referenced scenarios will not be achieved due to external factors, including a slower recovery from the COVID-19 pandemic.

The extent to which the Group's results of operations and financial condition will ultimately be impacted by, and any unforeseen costs will result from, the COVID-19 pandemic will depend on the duration of the pandemic and future developments, which are highly uncertain and cannot be accurately predicted. These developments include, among other things, further "waves" of COVID-19 or the spread of new COVID-19 variants, new information that may emerge concerning the severity of the outbreak and health implications, actions by government authorities to contain COVID-19 outbreaks or mitigate its impact and changes in consumer behavior resulting from the outbreak and such government actions.

On the other hand, as of June 30, 2021, the Group evaluated whether there is any risk of impairment on aircraft, tangible fixed assets, and intangible assets due to the effects of the COVID-19 outbreak, and in the light of the analysis made, it is concluded that there is not any impairment risk regarding the determination of the value-in-use of the assets. In the impairment tests, the Group used business plans revised by Board of directors in May 2021 and used some estimates such as number of passengers, passenger load factor, fuel prices and discount rates. The Group management will continue to make these analyses regularly.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation

Statement of Compliance with TAS

The Company and its subsidiaries registered in Turkey maintain their books of account and prepare their statutory financial statements in accordance with accounting principles in the Turkish Commercial Code and Tax Legislation.

The accompanying condensed consolidated financial statements are prepared in accordance with the requirements of Capital Markets Board (“CMB”) Communiqué Serial II, No: 14.1 “Basis of Financial Reporting in Capital Markets”, which were published in the Official Gazette No:28676 on 13 June 2013. The accompanying financial statements are prepared based on the Turkish Accounting Standards that have been put into effect by the Public Oversight Accounting and Auditing Standards Authority (“POA”) under Article 5 of the Communiqué.

The Group has prepared the condensed financial statements and its notes for the interim period ended 30 June 2021 in accordance with TAS 34 “Interim Financial Reporting”. These condensed consolidated interim financial statements do not include all the notes of the type normally included in annual financial statements and therefore, these interim financial statements are to be read in conjunction with the annual financial statements for the year ended 31 December 2020.

The condensed consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values. The accompanying consolidated financial statements are based on the statutory records, with adjustments and reclassifications for the purpose of fair presentation in accordance with Turkish Accounting Standards.

The consolidated financial statements have been prepared on a going concern basis, with the assumption that the Group will benefit from its assets and fulfill its liabilities in the subsequent year and in the natural process of its business operations.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.1 Basis of Presentation

Functional and Presentation Currency

Although there is no prominent currency affecting revenue and cost of sales, the Group's functional currency is determined as Euro for the reasons that, largest scale of scheduled flight revenue which is the Group's primary operation is generated from European flights, Euro is clearly effective on the financial liabilities of the Group and management reports and budget enabling the Company's management to make executive decisions are prepared in Euro. The functional currency of the Company and its subsidiaries is Euro.

If the legal records are kept in a currency other than the functional currency, the financial statements are initially translated into the functional currency and then translated to the Group's presentation currency, Turkish Lira ("TL"). For the companies in Turkey that book legal records in TL, currency translation from TL to the functional currency Euro is made under the framework described below:

- Monetary assets and liabilities have been converted to the functional currency with the The Central Bank of Turkish Republic (CBRT) foreign exchange rate.
- Non-monetary items have been converted into the functional currency at the exchange rates prevailing at the transaction date.
- Profit or loss accounts have been converted into the functional currency using the exchange rates at the transaction date, except for depreciation expenses.
- The capital is followed according to historical costs.

The translation differences resulting from the above mentioned conversions are recorded under other operating income / expenses in the statement of profit or loss.

Presentation currency of the Group's financial statements is TL. Financial Statements have been translated from Euro to TL in accordance with the relevant provisions of TAS 21 ("The Effects of Changes in Foreign Exchange Rates") as follows:

- Assets and liabilities are translated using the Central Bank of the Republic of Turkey ("TCMB") Euro rate prevailing at the balance sheet date; 30 June 2021
- Income and expenses are translated from Euro to TL at exchange rates at the dates of transactions.

Translation gains or losses arising from the translations stated above are presented as foreign currency translation reserve under equity. Share capital amount, representing the nominal share capital of the Company, all other equity items are presented in historic TL terms where all translation gains or losses in relation to these balances are accounted under foreign currency translation reserve.

Euro Amounts in the Financial Statements

Euro amounts shown in the consolidated balance sheet prepared in accordance with the TFRS have been translated from TL, as a matter of arithmetic computation only, at the official Euro rates announced by the TCMB as at the balance sheet date and Euro amounts shown in the condensed consolidated statements of income, comprehensive income and cash flow have been translated from TL, as a matter of arithmetic computation only, Euro rates calculated from the official daily rates announced by the TCMB.

2.1 Basis of Presentation

Comparative Information and Reclassification of Prior Period Financial Statements

Consolidated financial statements of Group are prepared in comparison to prior period in order to identify financial position and performance trends. In order to maintain consistency with current period consolidated financial statements, comparative information is reclassified and significant changes are disclosed if necessary. In the current period, the Group has made several reclassifications in the prior period consolidated financial statements in order to maintain consistency with current year consolidated financial statements. There is no effect of these reclassifications in the prior period equity and statement of profit or loss. The nature, amount and reasons for each of the reclassifications are described below:

- In the statement of financial position, TL 20.470.400 that was previously presented in passenger flight liabilities has been reclassified and reported in deferred income.
- Debt instruments amounting to TL 160.917.882 was by mistake presented within non current financial investments as at 31 December 2020. At these interim condensed financial statements, such financial instruments are reclassified to current assets.
- In the statement of cash flows, TL 146.863.540 that was previously presented within cash flows from operating activities has been reclassified to investing activities which is related to amounts paid for engine replacements.

2.2 Changes in Accounting Estimates

Changes in accounting estimates should be applied prospectively. If it related to a given period in which the change is effective it only impacts the current period. If it relates to future periods they are recognized to prospectively both in the current period and in the future period. Significant errors identified by the Group in the accounting estimates are applied retrospectively and prior period financial statements are restated. The Group has not made any changes in accounting estimates in the current year.

2.3 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the consolidated financial statements as at June 30, 2021 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2021. The effects of these standards and interpretations on the Group's financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at January 1, 2021 are as follows:

Interest Rate Benchmark Reform – Phase 2 – Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16

Amendments provide temporary reliefs which address the financial reporting effects when an interbank offering rate (IBOR) is replaced with an alternative nearly risk-free rate (RFR), amending the following:

Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform

The amendments include a practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest. Under this practical expedient, if the interest rates applicable to financial instruments change as a result of the IBOR reform, the situation is not considered as a derecognition or contract modification; instead, this would be determined by recalculating the carrying amount of the financial instrument using the original effective interest rate to discount the revised contractual cash flows.

Relief from discontinuing hedging relationships

- The amendments permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued.
- Amounts accumulated in the cash flow hedge reserve are deemed to be based on the RFR.
- For the TAS 39 assessment of retrospective hedge effectiveness, on transition to an RFR, entities may elect on a hedge-by-hedge basis, to reset the cumulative fair value changes to zero.
- The amendments provide relief for items within a designated group of items (such as those forming part of a macro cash flow hedging strategy) that are amended for modifications directly required by IBOR reform. The reliefs allow the hedging strategy to remain and not be discontinued.

NOTE 2 - BASIS OF PRESENTATION OF FINANCIAL STATEMENTS

2.3 The new standards, amendments and interpretations

i) The new standards, amendments and interpretations which are effective as at January 1, 2021 are as follows :

- As instruments transition to RFRs, a hedging relationship may need to be modified more than once. The phase two reliefs apply each time a hedging relationship is modified as a direct result of IBOR reform.

Separately identifiable risk components

The amendments provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

Amendments have been effective 1 January 2021. Group's financial instruments that are dependent on IBOR are mainly bank borrowings, bonds, lease obligations and derivatives. It is expected that the conversion of IBOR with alternative nearly risk-free rate will be complete by the end of 31 December 2021 and this conversion is not expected to significantly impact the Group's financial statements. However, the Group plans to use the facilitating practices in the further periods.

Amendments to TFRS 16 – Covid-19 Rent Related Concessions

In June 5, 2020, the POA issued amendments to TFRS 16 Leases to provide relief to lessees from applying TFRS 16 guidance on lease modifications to rent concessions arising a direct consequence of the Covid-19 pandemic. In April 7, 2021, POA extended the exemption to include concessions that cause a decrease in lease payments whose maturity expired on or before June 30, 2022.

The Group early adapted the amendment at its interim consolidated financial statements but adaption did not significantly impact the financial position or performance of the Group.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to "the date of issuance of the consolidated financial statements are as follows. The Group will make the necessary changes if not indicated otherwise, which will be affecting the consolidated financial statements and disclosures, when the new standards and interpretations become effective.

Amendments to TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

In December 2017, POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted.

ii) Standards issued but not yet effective and not early adopted

The Group will wait until the final amendment to assess the impacts of the changes.

Amendments to TFRS 3 – Reference to the Conceptual Framework

In July 2020, the POA issued amendments to TFRS 3 Business combinations. The amendments are intended to replace to a reference to a previous version of the Conceptual Framework (the 1989 Framework) with a reference to the current version issued in March 2018 (the Conceptual Framework) without significantly changing requirements of TFRS 3. At the same time, the amendments add a new paragraph to TFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date. The amendments issued to TFRS 3 which are effective for periods beginning on or after 1 January 2022 and must be applied prospectively. Earlier application is permitted if, at the same time or earlier, an entity also applies all of the amendments contained in the Amendments to References to the Conceptual Framework in TFRS standards (March 2018).

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

Amendments to TAS 16 – Proceeds before intended use

In July 2020, the POA issued amendments to TAS 16 Property, plant and equipment. The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment (PP&E), any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and costs of producing those items, in profit or loss. The amendments issued to TAS 16 which are effective for periods beginning on or after 1 January 2022. Amendments must be applied retrospectively only to items of PP&E made available for use on or after beginning of the earliest period presented when the entity first applies the amendment. There is no transition relief for the first time adopters.

The related amendment is not expected to have an impact on the Group's financial position and performance.

Amendments to TAS 37 – Onerous contracts – Costs of Fulfilling a Contract

In July 2020, the POA issued amendments to TAS 37 Provisions, Contingent Liabilities and Contingent assets. The amendments issued to TAS 37 which are effective for periods beginning on or after 1 January 2022, to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making and also apply a “directly related cost approach”. Amendments must be applied retrospectively to contracts for which an entity has not fulfilled all of its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Earlier application is permitted and must be disclosed.

The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.

2.3 The new standards, amendments and interpretations

ii) Standards issued but not yet effective and not early adopted

TFRS 17 - The new Standard for insurance contracts

The POA issued TFRS 17 in February 2019, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. TFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. TFRS 17 will become effective for annual reporting periods beginning on or after 1 January 2023; early application is permitted.

The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities

On January 15, 2021, the PAO issued amendments to TAS 1 Presentation of Financial Statements. The amendments issued to TAS 1 which are effective for periods beginning on or after 1 January 2023, clarify the criteria for the classification of a liability as either current or non-current. Amendments must be applied retrospectively in accordance with TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Early application is permitted.

The standard is not applicable for the Group and will not have an impact on the financial position or performance of the Group.

Amendments to TAS 8 - Definition of Accounting Estimates

In August 2021, the POA issued amendments to TAS 8, in which it introduces a new definition of 'accounting estimates'. The amendments issued to TAS 8 are effective for annual periods beginning on or after 1 January 2023. The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, they clarify how entities use measurement techniques and inputs to develop accounting estimates. The amended standard clarifies that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors. The previous definition of a change in accounting estimate specified that changes in accounting estimates may result from new information or new developments. Therefore, such changes are not corrections of errors. This aspect of the definition was retained by the POA.

Overall, the Group expects no significant impact on its balance sheet and equity.

Amendments to TAS 1 - Disclosure of Accounting Policies

In August 2021, the Board issued amendments to TAS 1, in which it provides guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments issued to TAS 1 are effective for annual periods beginning on or after 1 January 2023. In the absence of a definition of the term 'significant' in TFRS, the POA decided to replace it with 'material' in the context of disclosing accounting policy information. 'Material' is a defined term in TFRS and is widely understood by the users of financial statements, according to the POA. In assessing the materiality of accounting policy information, entities need to consider both the size of the transactions, other events or conditions and the nature of them. Examples of circumstances in which an entity is likely to consider accounting policy information to be material have been added.

Overall, the Company / the Group expects no significant impact on its balance sheet and equity.

2.3 Application of New and Revised Turkish Accounting Standards (TAS)

ii) Standards issued but not yet effective and not early adopted

Annual Improvements – 2018–2020 Cycle

In July 2020, the POA issued Annual Improvements to TFRS Standards 2018–2020 Cycle, amending the followings:

- TFRS 9 Financial Instruments – Fees in the “10 per cent test” for derecognition of financial liabilities: The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either borrower or lender on the other’s behalf.
- TAS 41 Agriculture – Taxation in fair value measurements: The amendment removes the requirement in paragraph 22 of TAS 41 that entities exclude cash flows for taxation when measuring fair value of assets within the scope of TAS 41.

Improvements are effective for annual reporting periods beginning on or after 1 January 2022. Earlier application is permitted for all.

The Group is in the process of assessing the impact of the improvements on financial position or performance of the Group.

iii) The new standards, amendments and interpretations that are issued by the International Accounting Standards Board (IASB) but not issued by Public Oversight Authority (POA)

The following standards, interpretations and amendments to existing IFRS standards are issued by the IASB but not yet effective up to the date of issuance of the financial statements. However, these standards, interpretations and amendments to existing IFRS standards are not yet adapted/issued by the POA, thus they do not constitute part of TFRS. The Group will make the necessary changes to its consolidated financial statements after the new standards and interpretations are issued and become effective under TFRS.

Amendments to IAS 12 – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

In May 2021, the Board issued amendments to IAS 12, which narrow the scope of the initial recognition exception under IAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. The amendments issued to IAS 12 are effective for annual periods beginning on or after 1 January 2023. The amendments clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognised in the financial statements (and interest expense) or to the related asset component (and interest expense). This judgement is important in determining whether any temporary differences exist on initial recognition of the asset and liability. Overall, the Group expects no significant impact on its balance sheet and equity.

NOTE 4 - SEGMENT REPORTING

The Group is managed as a single business unit that provides low fares airline-related services, including scheduled services, charter services, ancillary services and other services. The Group's Chief Operating Decision Maker is the Board of Directors. The resource allocation decisions are based on the entire network and the deployment of the entire aircraft fleet. The objective in making resource allocation decisions is to maximise consolidated financial results, rather than results on individual routes within the network. All other assets and liabilities have been allocated to the Group's single reportable segment.

Financial Risk Factors

Foreign currency risk management

Foreign currency sensitivity

The Group is exposed to foreign exchange risk arising primarily with respect to the US Dollar and Turkish Lira.

The following table details the Group's sensitivity to a 10% increase and decrease in US Dollar, and TL. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated items and adjusts their translation at the period end for a 10% change in foreign currency rates.

Foreign currency sensitivity tables as of 30 June 2021 and 31 December 2020 are as follows:

30 June 2021	Profit/(Loss)		Shareholders' equity

NOTE 24 - FINANCIAL INSTRUMENTS (FAIR VALUE AND HEDGE ACCOUNTING DISCLOSURES)

Fair Value of Financial Instruments

The fair values of financial assets and financial liabilities are determined and grouped as follows:

- Level 1: the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices:
- Level 2: the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions; and
- Level 3: the fair value of financial assets and liabilities are determined by the input that does not reflect an actual data observed in the market while finding the fair value of an asset or liability.

As of 30 June 2021, the Group has fuel purchase forward contracts subject to hedge accounting on the purpose of covering 28,9% (2020: 54%) of the expected total fuel consumption for the upcoming one-year period. The maturities of these contracts last until June 2023. Weighted average tonne price of these contracts is US Dollars 640,6 (2020: US Dollars 517,8). As of 30 June 2021, the excessive amount over the effective rate is not material. During June 30, 2020 the Group discontinued a portion of the fuel hedge because the due to COVID-19 fuel purchase expectations has been reduced. As result, the Group discontinued a portion of such hedge relationship and immediately reclassified the accumulated gain or loss on the hedging instrument that has been recognised in other comprehensive income to other operating expenses account, which amounted to TL 212.129.100.

NOTE 25 - EVENTS AFTER BALANCE SHEET DATE

Hitit Bilgisayar Hizmetleri A.Ş., associate company where we hold 50% stake, decided to explore opportunities for the initial public offering of its shares. The contemplated offering and the prospectus will be subject to the approval of the Capital Markets Board.

NOT 26 – INCOME TAX ENPENSE
